

Hair Removal

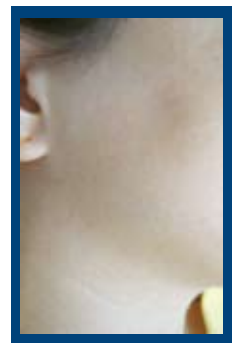

Almost everyone has unwanted hair somewhere on their body. Unfortunately, traditional hair removal routines can be tedious, painful and expensive over time. Shaving may last a day, waxing a couple of weeks, but none of them last forever – and therein lies the true beauty of laser hair removal.

At the Center for Advanced Wellness and Lasers, we can give you that “hair-free” skin you have always wanted. Our laser emits a gentle beam of energy that passes through the skin to the hair follicle. Unlike most laser treatments, our process combines two optimal wavelengths in one system, allowing the treatment of both fine and coarse hair on all skin types. With our advanced dual wavelength technology, we can provide you with the best results for permanent hair removal.

We offer a guarantee on our hair removal laser services. If you follow our protocol and do five consecutive sessions (one per month for five consecutive months) we guarantee if you have any additional hair growth in the area treated, we will re-treat that area at no additional cost.

Hair Removal Benefits:

- Permanent hair removal
- Treats all skin types
- Enhance your appearance and boost self confidence
- Achieve smoother looking skin
- Avoid skin irritations that shaving can cause
